Subject: SCEG

Would you please take into consideration the economic times before you grant the increase SCEG is asking for? We are not a wealthy state except for a few at the top and many of the citizens, like me, are on very fixed income that gets beat to pieces every day from prices going up on food, gas, insurance, doctor bills, etc. Most of us keep our heat at 67 or lower and raise it in summer and we have no option or choice as to providers. Just please, remember your lower middle class and your senior citizens like me and others who are really suffering and struggling to pay any bills at all.

Thank you,

B. Summers
